Full survey management via the Reporting Service

*After checkout at Elkjop
(part of Dixons Carphone plc)
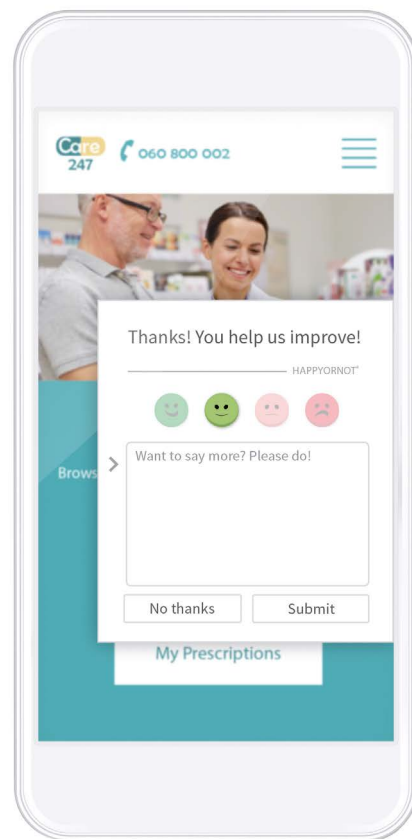

Delay interval	Smart pop up	Browser support	Automatic updates
Panel reappearance can be set to the desired interval	Customize where and how many times to show the panel	All browsers supported, plus mobile optimized	Maintenance free, with automatic updates

Reporting Service

Track and manage your service performance with intuitive and interactive data analytics. Pinpoint issues and uncover causes with ease, and make improvement actions that can be measured and verified.

Quick View

A highly visual and easy to understand summary of key service performance results displayed in various widgets depending on the selected filters for Location/Area, Survey Question, and Time Period.

Key Findings: snapshot of key service performance details.

Overall Distribution: percentage breakout of feedback responses per Smiley.

Development: Happy Index trendline, including percentage change in feedback.

Distribution: total responses segmented by Smiley color, with the Happy Index.

Pattern: total feedbacks during a selected period displayed in a "heat map" style.

Ranking: list of the top performing and bottom performing locations/areas.

KEY FINDINGS

Nice! Your performance improved last week
